

Training and Consulting

for the Food Processing Industry

Increase your marketability and profitability. We can help you with GMP and food safety training, preparation for Global Food Safety Initiative (GFSI) certification, and process/product development and improvement.

More Than Just Another Food Safety Consultant

Finding a qualified partner that knows food safety, compliance, and processing can be a challenge. Finding one that can also assist in your leadership and workforce training, safety, and energy efficiency and sustainability efforts is nearly impossible. PennTAP is that partner.

We'll help you:

- secure a HACCP food safety plan
- prepare for a Good Manufacturing Practice audit
- prepare for GFSI Food Safety Schemes, such as Safe Quality Foods (SQF), British Retail Consortium (BRC), or FSSC 22000 Food Safety Management systems
- become “greener” and more energy efficient
- acquire the leadership and managerial skills to move your organization forward

Why PennTAP?

- PennTAP is the food processing industry's comprehensive provider of assessments, coaching and training, consulting, and technical assistance.
